

Director of Cancer Resources Center

Chesapeake, VA

Live near the beautiful Virginia coastline!

Position

- Responsible for the overall operations of the Cancer Resources Center including radiation oncology, breast center, chemotherapy, pain management, palliative care and social services
- Develop and implement strategic initiatives to expand and maximize the effectiveness of the oncology program
- Create a business plan to market the program to the physicians and the community, monitor profitability, facilitate integration and teamwork
- Establish a plan to improve technology and effective use of space for chemotherapy patients
- Introduce and market the new Seed Implant Prostate Program and Stereotactic Radiology Program while expanding other services

Hospital

- This 310-bed, local, independent, community-focused, Joint Commission accredited hospital has begun the journey to achieve Magnet status
- Services include cancer care, cardiac care, hospice and home health, community outreach, women's services, diabetes services, OB/GYN, orthopedic services, inpatient and outpatient surgery, and a supportive health foundation
- The hospital was the first in the region to offer a full-time patient navigator, and their cancer program has been certified by the American College of Surgeons since 1976

Community

- With a population of 211,000, this unique city blends rural and urban centers, providing the community with excellent schools, recreational and cultural facilities and strong municipal leadership as the city continues to grow
- Located within quick access of Virginia Beach, colonial Williamsburg and Portsmouth, this region is a treasure to its residents
- Local events and activities include Antique Alley, golf courses, historical attractions, sites of the Civil War and Revolutionary War, shopping, fishing, winding waterways and lively parks. The city is adjacent to the world's largest natural harbor and the world's largest naval base.

Qualifications

- Bachelor's degree required with a master's degree preferred
- Individuals with a strong clinical background and leadership skills
