

**President  
Carolinas Cancer Institute**

Carolinas HealthCare System (CHS), a leading integrated healthcare system serving North and South Carolina with more than 6300 licensed beds, 48,000 employees, 1500 employed physicians and 500 care locations, announces the establishment of the new Carolinas Cancer Institute. The CHS Cancer Institute consists of a critical mass of cancer specialists-from scientists to surgeons and oncologists. Through close collaboration, the Institute's many cancer professionals will provide the latest in prevention, diagnostics, therapeutics and education for cancer patients. The Carolinas Cancer Institute includes a new state-of-the-art 200,000 sq. ft cancer facility and an enterprise wide cancer network of community based cancer professionals. This network extends across all 32 affiliated hospitals. The Carolinas Cancer Institute will seek ACoS accreditation at all sites and NCI NCCCP accreditation.

The Carolinas Cancer Institute seeks to recruit a nationally recognized cancer professional who will serve as the founding President of the Institute and who will provide the vision and leadership for the continued development of this Institute and network. The President will oversee and direct all aspects of this Institute: expansion and development of strong treatment and clinical research programs, recruitment of additional accomplished hematology/oncology leaders, alignment of all providers and members of the network towards common goals and attainment of the highest level of clinical quality and evidence based medicine standards. Candidates will be a highly respected surgical or medical oncologist with a track record of accomplishments in cancer including clinical care, education and clinical translational research. Successful candidates will come from a recognized cancer program or NCI designated cancer center. Previous leadership experience as a Chief or Chair or similar position is required. Candidates must possess a dynamic and collaborative leadership style with excellent organizational and communication skills, programmatic development abilities, and the ability to describe the Institute's vision to all audiences.

CHS is headquartered in Charlotte, NC, which was chosen the "Best Place to Live in America" by relocate-America.com in its 2008 annual ranking, based on factors including employment opportunities, crime rates, and housing affordability. It was also named #8 of the 100 "Best Places to Live and Launch" by CNNMoney.com <<http://en.wikipedia.org/wiki/CNNMoney.com>> ; cities were picked for their vibrant lifestyles and opportunities for new businesses.
