

Chesapeake Regional Medical Center, located in Chesapeake, VA, is seeking qualified candidates for the position of **Oncology Service Line Director**. The Oncology Service Line Director will report to the Vice President of Marketing, Planning and Business Development, and will oversee management and operation of Sidney M. Oman Cancer Treatment Center, Chemotherapy Service, and the CGH Breast Center. The successful candidate will be responsible for the development and implementation of strategic initiatives to expand and maximize the effectiveness of the CRMC Oncology Program.

Chesapeake Regional Medical Center brings a broad range of care to the people of southeast Virginia and northeast North Carolina. The hospital is 310-bed, local, independent, community-focused organization offering area residents high-quality healthcare delivered by people who openly display their caring, concern and compassion. To learn more, you may visit Chesapeake Regional Medical Center's website at www.chesapeakeregional.com.

Key qualification requirements include:

- a BS degree in Business Administration or related field required; a Masters in Healthcare Administration, Business Administration or related field preferred;
- a minimum of four years management experience in a diagnostic or therapeutic related field;
- exhibits a solid background in basic management principles and practices including medical staff relationships, marketing, health planning, finance, construction project management, communications and interpersonal relationships and ancillary health agencies at a local, state and national level.

This is an excellent opportunity to work for a growing and well-run organization. Please send resume to Davy Collet - davy@andersonexecsearch.com or via fax 704.347.0064.
