

DIRECTOR, ONCOLOGY SERVICES
Piedmont Fayette Hospital
Atlanta, Georgia

Piedmont Fayette Hospital brings more than high-quality health services to our community. Our 143-bed acute care facility is a source of pride, innovative thinking, advanced technology, compassion and most importantly for oncology patients hope. Part of award-winning Piedmont Healthcare, we embrace our parent group's philosophy of a perfect balance between health and care, but add our own sense of connection with those we serve...after all, they are our neighbors, families and friends. At Piedmont Fayette, you'll feel the connection with your peers, as well. Teamwork is what grounds us; after all, this facility was built with input from staff members who know firsthand what really works! Come be part of our not-for-profit community hospital and lend your talents and leadership to making people better.

DIRECTOR, ONCOLOGY SERVICES

This key role in our Oncology Administration Department will provide both strategic and operational leadership for the development of the service line, ensuring a full continuum of services that fully responds to patient, physician and payor needs. A visionary leader who sees both details and the big picture, the selected candidate will be a driving force in developing an overall oncology leadership structure, quality initiatives and growth objectives.

Qualifications:

- MBA or master's degree in healthcare
- 5+ years' management experience or progressively responsible background in healthcare or a closely related discipline
- Demonstrated abilities to provide strategic direction, mentor and empower personnel, adapt to rapidly changing priorities and successfully market services
